The limitations found in claims 1 and 19 of a motor operated sprayer having a discharge opening, a variable volume pump having a pump axis and having axially spaced apart fixed and moveable ends, a fluid supply container, a cam rotatably driven by the motor, and a cam follower for displacing the movable end of the pump; and wherein each of the cam and cam follower consists of first cam face in a first plane intersecting the corresponding axis at a first plane thereto, and a second cam face in a second plane intersecting the first plane at a second angel thereto; and wherein an inter-engaging means arrangement including rollers on one of the pump and cam follower, and slots on the other receiving the rollers in combination with the other claimed limitations were not found or taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
